

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

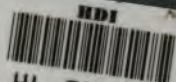

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Inspectors' Report

*To the Governor, the Senate, the House of Representatives,
and the Board of State Charities, of the Commonwealth of
Pennsylvania :—*

THE President and Board of Inspectors of the State Penitentiary for the Eastern District of Pennsylvania, respectfully present the following report for the year A. D., 1912.

No change has occurred in the personnel or the organization of the Board.

099
The administration of the Institution by the Warden, Robert J. McKenty, has the cordial approval of the Board.

2/28/46
The condition of the Buildings and plant of the Institution, has been preserved in the highest working efficiency; several improvements have been planned, of which details will be presented. In this connection it is purposed to increase the facilities for the education of the inmates, permitting a wider scope in the work now being done.

Every step taken is following up a carefully considered purpose to do the utmost possible to meet the best wishes and designs of the people, whose servants we are.

School facilities have been furnished, by building up yards, not needed in the rear of cells; this can be still further done, to supply us with much needed room.

Our classes have grown and we are receiving a generous service from under-graduates of the University of Pennsylvania in extra hours of class room work. School for illiterates, and the Correspondence School for those further advanced are all doing well, and we have started a trade school from which we hope increased growth and great benefit in the near future.

The operation of the Parole Law, presents a constantly growing field of thoughtful effort; from the nature of the case, the problems presented are often painful and complex in their character, but the outcome has been as satisfactory as could be reasonably expected.

A detailed statement will be found in the report of the Parole Officer.

The excellent condition of the health of the inmates, and the general activities for their care and well being, is illustrated in the accompanying reports.

We beg to call official attention to the fact that our charge to the Counties for maintenance is 19 cents per capita per diem.

We are indebted to the members of the Consulting Staff, for their generous and efficient services so freely given.

The Board has been in close attendance, and given personal supervision to the various departments and business of the Institution.

In conclusion, the President of the Board takes the opportunity to express his high appreciation of the faithful and efficient service of his associates of the Board and the Officers of the Institution.

We respectfully invite attention to the accompanying reports.

Very Respectfully
Submitted,

CHARLES D. HART,
Secretary.

MURRELL DOBBINS,
President.

Warden's Report

To the Honorable Board of Inspectors of the State Penitentiary for the Eastern District of Pennsylvania :

GENTLEMEN :

I beg leave to submit the following report for the year 1912.

On the first day of January, there were prisoners in this Institution as follows:—

1017 white males, 15 white females, 306 colored males, 12 colored females.

During the year, there were received prisoners as follows:—

362 white males, 2 white females, 94 colored males, 10 colored females.

Prisoners were discharged during the year as follows:—

By Commutation Law 159; by Order of Court 18;

THE NEW BLOCK

by Order of Department of Justice 2; Time out 34; Death 10; Pardoned 19; by Order of Managers of Huntingdon Reformatory 2; by Parole 168.

At the close of the year there were prisoners as follows:—

1050 white males, 12 white females; 328 colored males; 16 colored females, showing an increase in the population from last year of 56.

The largest number present during the year was 1427, the smallest 1338, the average being 1379.

The discipline of the Institution has been good during the year.

The new sanitary plumbing system has been completed throughout the entire Institution, thereby, doing away with the old and unsanitary condition.

Repairs and betterments have been made as seemed needful for the preservation of the property.

There were 21 yards covered on the Seventh Block, thereby making five large rooms, two of which are being used as a school for illiterates, the remaining being used as a Trades School, which was started in June. The interest shown by the inmates and the success, which they have accomplished in the work, proves to our mind the importance of these schools, as the young men who are taking advantage, will be fully equipped to go outside and obtain employment by which they can earn a livelihood.

Baptism and Confirmation has been held by the various churches.

The female prisoners have been visited regularly by the King's Daughters and the Sisters of Mercy.

The prisoners in need of clothing, on discharge,

have been supplied by the Pennsylvania Prison Society, through their agents, Mr. Albert H. Votaw and Mr. Frederick J. Pooley.

During the year there has been added to our Consulting Staff, Dr. Frank C. Knowles, as Dermatologist.

I desire to thank the Board of Inspectors and Officers of the Institution for the counsel and aid given me in the discharge of my duties during the year.

Respectfully submitted

ROBERT J. McKENTY,

Warden

THE NEW STABLE

Parole Officer's Report.

To the Honorable Board of Inspectors of the State Penitentiary for the Eastern District of Pennsylvania :

GENTLEMEN :

Herewith I respectfully submit my report as Parole Officer for the year ending December 31, 1912.

Having passed through our second year in administering the Indeterminate Act of May 10, 1909, as affected by the new Act of June 19, 1911; I am submitting the figures for the two years, thereby showing the value of the Parole laws.

The interest of the Board in the Parole system can readily be seen by an examination of the records of the department. The Board has not only paroled prisoners, but has shown a great interest in their subsequent welfare. It has allowed paroled prisoners to change their positions and location, when convinced that the change would inure to the betterment of the paroled. Let me cite one of the many cases of this kind.

The Board gave a prisoner permission to change his position where he was making \$15.00 per week, and go to another State to take another position. He is now earning \$100.00 per month.

The Parole law has had a salutary effect and been helpful to some of the old offenders. The Board paroled a prisoner who had upon three different occasions been sentenced to this Penitentiary. He served out his parole and is now a section foreman on one of the railroads in this State. There are many other cases of this kind.

The paroled have been very successful in obtaining steady employment; in only four cases have we been called upon to assist them in securing work.

Of the 309 prisoners paroled since the Law went into effect, 64 have broken their parole, or about 21 per cent, leaving 79 per cent making good. Out of the 64, who during the last two years violated their parole, only 7 have committed other crimes, 5 being returned here, and 2 serving time in other institutions. Others have been returned for violation of some regulation of the Parole law or rules.

Of the 64 violators of Parole, 46 have been returned, or about 72 % of these 64 violators, 16 are still missing, or about 5 % of those Paroled.

Of the 309 prisoners paroled, 46 have been returned, or about 15 % of the prisoners paroled.

I take this opportunity of expressing to the Members of the Board, my sincere thanks for the interest which they have taken in this work, and the assistance and encouragement they have given me in my efforts to make this system a success. I also wish to acknowledge my appreciation of the assistance rendered me by the Warden, Chaplain, and other officers of the institution.

Dentist's Report

To the Board of Inspectors of the Eastern State Penitentiary:
GENTLEMEN:

I respectfully present my Report for the year A. D. 1912.

A more intelligent sense of the need and duty of a proper care of the teeth is being shown among the inmates, and its effect is plainly manifest in the general conditions that obtain.

The following table is a detailed statement of the work done.

Physician's Report

*To the Honorable Board of Inspectors of the State Penitentiary
for the Eastern District of Pennsylvania :*

GENTLEMEN:

The general health of the Institution has been good, no contagious diseases have developed and there has been no typhoid fever treated this year, and no case originating in this Institution for the past two and a half years.

There were 17,732 sick calls during the year, and 17,217 prescriptions from the drug store. 440 cases were treated in the hospital, of which number, 10 died.

One of these cases was an accidental death from shellac poisoning, and one a suicide from phosphorus poisoning, making a mortality rate per 1000 from disease on average population, of 5.78 and from all causes 7.22 per 1000.

The mortality rate per 1000 on total population was 5.50

Philadelphia prides herself this year on a reduced mortality rate of 15.08 per 1000.

Of the 412 prisoners discharged during the year, 255 gained weight; 39 remained stationary, and 118 including those who died; lost weight.

Thirteen cases having been examined by commission and found insane, were by order of Court transferred to hospitals for the insane.

The tubercular cases are isolated and treated in open air cells. The tubercular death rate per 1000 on average population was 2.89. Last year the tubercular death rate was unusually low; combining the two years together, the average death rate per year from tuberculosis was 2.19 per 1000.

As usual the system of general disinfection of the Institution is being closely followed, and the place made entirely sanitary with most beneficial results.

The hospital is in good condition, the operating room, a view of which will be found on another page, is up to date, well equipped and for its purpose can not be surpassed.

The Consulting Staff has been strengthened by the appointment of Dr. Frank Crozer Knowles as Dermatologist.

I wish to express my thanks to the Consulting Staff who have at all times cheerfully rendered valuable assistance.

Respectfully Submitted,
H. W. HASSELL, M. D.
Physician.

VIEW OF CONSUMPTIVE YARD

Moral Instructor's Report

The Board of Inspectors of the Eastern State Penitentiary of Pennsylvania :

GENTLEMEN :—

With grateful recognition of the good we have received from the hands of God, I respectfully present this report.

There is a continual developement in the improvement along the lines that have been inaugurated by the Board, so that we have virtually a new Institution, on the basis of the separate system as it was originally devised, so that the life and methods of today have practically but little similarity or relationship to those of a few years past.

The Parole Law which is now fully in operation, is doing good work in helping those who honestly purpose to do well, and also shows that there are some whom no law will render sober, industrious, and honest.

The school department has constantly grown, as fast as facilities can be found for its uses.

During the Spring months, to the great satisfaction of our people, we had the services of students of the University of Pennsylvania, who came on Saturday afternoons, and took two classes for special courses until the close of the college year.

We are now arranging for another term under the care of several of the present students of the University. Miss Josephine T. Monges has generously donated to the Institution, a Lantern and Slides, making a valuable adjunct to our present plans.

The music of the Band and Orchestra, has become a settled part of our life, and is a valuable element in the mental hygiene; in the same category might be placed the Ball games, allowed occasionally during the Summer.

As in every element in the occupation of society, there is need of watchful care.

The great improvement in the mental and physical health, gathers in its service all the means we can contribute.

We are still beneficiaries of the constant work of the Pennsylvania Prison Society, The American Society for Visiting Catholic Prisoners, the Protestant Episcopal City Mission, and the Prisoners' Guild of the King's Daughters. Mr. Frederick J. Pooley in his intimate relations with the Magistrate's Court and the Moyamensing Prison, is doing a very valuable work in guiding the life of many from the beginning of crime to honesty and virtue; we share in his good works.

Pastors of the churches are afforded every facility in their work among members of their Communions.

Baptism, Confirmation, Sacraments, and Confessional services are freely participated in by the respective Denominations.

Our Sunday morning Service for Divine Worship at 9 o' clock, is well sustained by ministers and choirs.

Song service at 3:30 P. M. is provided by the Protestant Episcopal City Mission, and a choir by The American Society for Visiting Catholic Prisoners is provided, Bi-monthly.

We are generously supplied with religious reading by the Moody Bible Institute, of Chicago, Mrs. Maud Ballington Booth, of New York, and Miss Evangeline Booth, of New York; and with

Christmas cards and mottoes by the Protestant Episcopal City Mission of this city, and the Gospel Trumpet Company, of Anderson, Ind.

I desire to express our indebtedness to many friends among the churches, for the sympathy and aid so generously afforded us, and to the Ministers of the various Denominations for their services in our Sunday worship ; and the faithful work of the Ladies of the King's Daughters.

The Library maintains its place in the estimation of our people for its support in their life ; with the work and training of our school, it is invaluable in its influence.

The Printing Department is kept fully occupied in the business of the Institution, and together with the Bindery is doing well.

I beg to acknowledge the courtesy and assistance of the Board of Inspectors and the Warden, in the varied needs of my work; and the willing aid of the officers in my intercourse with the inmates.

The following figures were obtained in my interviews with those received.
